

# Structural Engineering Associates

**Mark A. Smith, PE, SE**  
Vice President, Structural Engineer

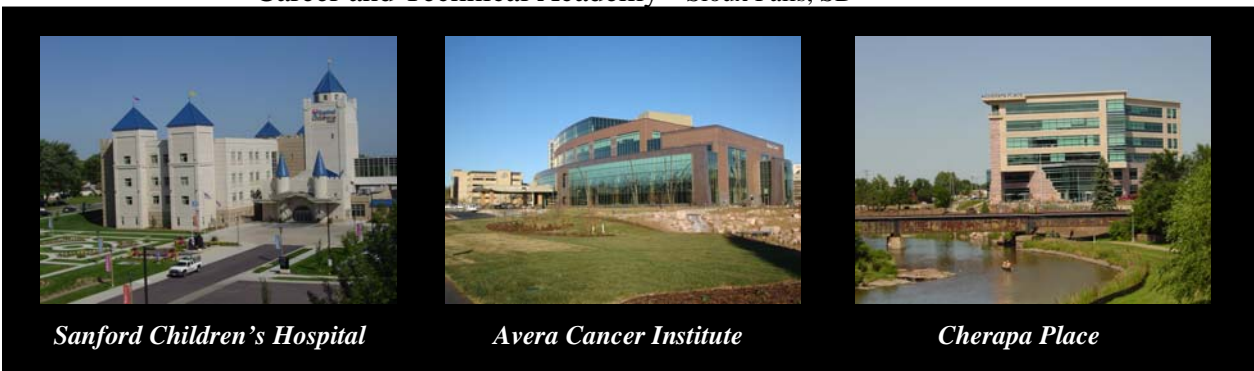

Mark Smith brings his 22 years of experience in heavy industrial, commercial, office, civic, government, and religious buildings to every project. He was the Structural Engineer of Record on the current largest building project in Sioux Falls history. Mark is a hands-on engineer and is deeply involved in every project he certifies. Mark is experienced in BIM and has led SEA, Inc.'s implementation of this project delivery system.
